En Your Guide.
You are in the right place.
Unleash the inner perfumer in you and create your own unique Perfume.

THE HOUSE

Your brand, our factory

Since 2011 we have composed, filled and finished fragrance in Çorum — for our own houses, Golonya, Golonya Atelier and Alonya, and for brands who wanted a signature scent of their own.

Cafés and concept stores, hotels, agencies and retailers: each came with an idea and left with a product that carries their name.

The same team and the same 11,500 m² factory are open to your project: fine fragrance and eau de cologne, home fragrance, wet wipes, and care lines developed with Alonya, our aromatherapy house.

3 choices: the scent, the bottle, the packaging

HOW IT WORKS

Three choices

You decide what it smells like, what it looks like and how it is dressed. We make it.

1

CHOOSE YOUR SCENT

By personality, from a fragrance you already love, or ingredient by ingredient: our perfumers guide you to the composition that fits your brand.

2

CHOOSE YOUR BOTTLE

A wide choice of quality glass, with caps and accessories to dress it. Play with shapes and colours until it is yours.

3

CREATE YOUR PACKAGING

Box, label and finish designed to your guidelines by our graphic team — colours, logo and materials in harmony with your image.

CHOOSE YOUR BOTTLE

We offer you a great choice of high quality glass bottles and an assortment of accessories allowing you to dress the bottle of your choice and give it your personal touch.

Play with shapes and colors. Make it yours!
